*Developing a robust risk management framework is critical to our roadmap as we work toward launching digital asset services," said Katey Neate, Chief Risk Officer of BNY Mellon Asset Servicing & Digital. "Our strengthened alignment with Coin Metrics is another example of how we are leveraging leading technology solutions to develop this critical capability. With Coin Metrics, we have the opportunity to advance the capabilities and conversation, and ultimately raise the bar on risk management for digital assets as an industry.*

**Katey Neate, BNY Mellon**
