THE CM NETWORK DATA PRO DIFFERENCE

Leverage trusted data for confident investing

AGGREGATED METRICS

Simplifying blockchain data accessibility

- Aggregate transaction, address and other network metrics at the asset level
- Ensure consistent metric methodologies across various blockchains
- Provide extensive documentation
- Create a searchable UI for data coverage and catalog

INTUITIVE DOCUMENTATION

Providing robust and transparent documentation

- Provide metric definition and calculation details
- Implement geo-redundant node infrastructure, storage, and data delivery applications
- Maintain robust telemetry and monitoring systems

VERSATILE DATA DELIVERY

Delivering convenient and real-time data solutions

- Offer real-time and daily aggregated metrics
- Provide a REST API with Python & R API Clients
- Offer crypto data charting tools for easy timeseries visualizations
- Feature dashboards for analyzing multiple activities

DEEP CRYPTO EXPERTISE

Leading authority in on-chain research and market analysis

- Make significant contributions to advancements in on-chain research
- Build a reputation as a trusted provider of network data metrics since 2017
- Apply traditional capital markets principles to crypto markets

INNOVATIVE METHODOLOGIES

Leading the industry with cutting-edge metrics and methodologies

- Ensure consistent metric methodologies across various blockchains
- Create novel metrics such as Realized Cap, MVRV, and miner nonce metrics
- Develop the first crypto Free Float Supply methodology

STRONG RESEARCH FOUNDATION

Offering expert insights and unbiased analysis

- Employ a team of expert cryptoasset analysts
- Provide weekly commentary and insights through State of the Network and State of the Market newsletters
